

Designed with the Patient in Mind from Day 1

Laminar Airflow Design

Supports natural breathing
with reduced pressure

Flexible Swivel Connector

Allows patients to move freely
— even side sleepers

Quiet Performance

Low-noise operation promotes
peaceful, uninterrupted sleep

Custom-Fit Comfort

3 pillow sizes provide gentle
seal inside the nostrils for an
ideal fit

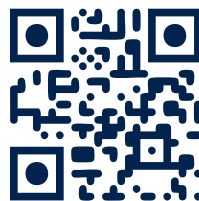

DeltaWave solves one of the top reasons patients quit CPAP therapy – discomfort.

The unique DeltaWave design is light,
easy to fit, simple to learn, and helps
minimize common mask problems like red
marks and refits.*

FDA-cleared, every key component
of the DeltaWave Nasal Pillow System
has been researched, tested and
engineered to deliver smooth airflow
and maximum comfort.
